

Please ,Let Choice Communications have whatever permits they need, Innovative telephone is ridiculous ! My phone has now been out of service since January 6th 2005 , today is March 8th ! Their service is terrible. I gave up my cable service years ago and bought a dish for Dishnet.I had a second line installed and in two years didn't get on line more than a few dozen times at 21 bytes ! I canceled that line as well as internet service.
